OUR NEW YORK LETTER

[FROM A CORRESPONDENT OF THE OREGONIAN.]

NEW YORK, Feb 11, 1867

NEW YORK ON SKATES.

For four weeks and a day all New York has been on a bender with Tom and Jerry and Flint. Sleighing the best for twenty years and ice on all the rivers lakes and ponds as thick as a butcher's meat block and clear as crystal. Carnivals on runners, and carnivals on skates, how the merry bells have gone twinkling and ringing by as two or ten thousand turnouts have dashed along Fifth Avenue to the splendid drives in Central Park and how another merry throng are skimming swiftly over the frozen lakes!

What a popular pastime—

I spied [illegible] for all the belles and [illegible]
I squeeze each their hands beneath the buffalo [illegible]

But skating is the pet passion of the winter. The mania is at its height and the very name of a frozen pond is more exhilarating than *Catawba* or *Heidsieck*. Skating is fashionable, and everybody has been or is going, no matter if a few dozen broken heads, more or less, do come of it.

New York and Brooklyn, Jersey City, Williamsburg, Harlem and Hoboken from center to suburb of this great metropolis, have their scores of public and private skating lakes and skating *rinks*. We bought a pair of skates and tried our skates. We struck out boldly and 'let her slide,' but we soon struck it for keeping upright was in vain. We must be pious for 'the wicked *stand* on slippery places.' We could not. We wanted some time in seeing an expert 'carve a turkey or an eagle on the ice,' and we thought we would try it again. Having gone about five feet ten inches we flattered ourself we were getting on swimmingly when we met a young lady, sailing down under full canvas swifter than the Yacht *Henrietta*. We endeavored to quickly *port helm*, and in doing so executed the very difficult and very surprising movement of thrusting our dexter skate entirely through her 'Bradley's patent duplex elliptic,' and for a quarter of a minute, standing on our heads, we suppose we enjoyed the sight of the grandest shower of shooting meteors ever beheld on the continent.

After extricating ourself from this dilemma we hired a Park policeman and a broad bottomed chair at twenty five cents each per half hour to aid us in our further maneuvers. We next fell in with a bright little urchin of ten winters who kindly offered to show us how to skate backwards. We joined hands and felt renewed confidence, for he said our motto must be 'United we stand, divided we fall.'

The remark gave us a higher appreciation of that boy's talents. We presented him with a ten cent stamp and our photograph. He was such an observing young man, that but for a remark he casually dropped, we might have been skating backwards till this day, we ran so well on the crawfish tack. 'Mr Flint,' said he 'you are displaying a white flag at half mast that needs reefing.' We would rather have that youth for a friend than an enemy, any day.

We pulled off our skates, the boy laughed. We took in our colors, the young lady smiled. We slowly and sorely wended our way homeward "a wiser if not a happier man."

Skating may be a big thing, but it's not our forte. The ice is not what it's cracked up to be.

Our festive friend Josh Billings, of Pokeepsy on the Hudson, has been to see the great sensation and writes this graphic eulogy about

BIG THINGS ON THE ICE.

Having herd so much sed about skating parks, and the grate amount uv helth and mussel they was imparting to the present generation at a slite advance from fust cost, I bot a ticket and went within the fense.

I found the ice in a very slippery condishun, covering 5 akers of artifishall water which was owned by a joint stock company, and was froze to order.

Upon one side ov the pund was erected little grocery buildings, where the women sot on benches, and the fellers (covered with blushes) hitched the magic iron to their feet.

It was a most exciting scene. I wanted tew holler "bully," or lay down and roll over.

But I kept in, and aked with glory.

Helth was pictured on many a noble brow.

As the femail angells put out on the pond side by side with the mail angells, it was the most powerful scene I ever stood behind.

The long red tape swum in the breeze, and the fethers in the Jockeys fluttered in the breeze and other things (tew much tew menshun) fluttered in the breeze.

I don't think I was more crazy before in my life—on ice.

For 2 long hours I stood and gazed with dum excitement.

I felt like a kanall horse suddenly turned out to graze.

As one ov the angells more sudden than all the rest, come flying down the trak 3 lengths ahead ov her mail angell, all eyes were gorging with her heavenly bust—ov speed, she seemed to have cut luce from earth, and was bound for the Cape ov Good Hope, when awl to wunst, with gorgeous swoop terrifick, down crumpling into a limpid heep she went, with squeel terrifick, a living luvly mass ov disastrus skirt and tapering ankle.

Awl gathered around the busted angell, but lo! in a mounts space her wings agin was plumed and every fether was in its lawful plase, and on she flew laffin like wine thru its butcous blushes.

I had saw enuff—more happiness than belonged tew me—and as I slowly wended back tew my hum at the tavern I felt good.

A LITTLE CONFIDENCE GAME.

It becomes our painful privilege to record for your readers, and as a warning to all those Oregon bachelors who may have occasion to visit the Atlantic States, the recent *happy and unhappy mishaps* of one of the Webfoot in the vicinity of this city. This victim of the *hoax* has a large circle of admiring friends among the ladies from Jacksonville to Portland, among whom Oregon summers have ripened him into well advanced manhood.

And sad shall you hear a tale
So sad, so tender and so true

Here, in a short time he made many new friends, and soon got the *entree* into fashionable society. Susceptible to the arts and darts of cupid's votaries, he was ushered into a round of sociable gatherings and in less than two months was happy in the assurance that he had at length met the lovely solvent of his wearisome condition of single wretchedness.

Who ever loved that loved not at first sight!

It will not be amiss to say that although the lady was herself sufficiently advanced in years to suit his age and condition he was rendered the more happy in a belief that he was her first and earliest love.

Blest with a temper whose unclouded ray
Could make to-morrow cheerful as to-day,

the lady soon was led to the hymeneal altar by our Webfoot friend. That season known as a mixture of bee bread and moonshine (or some like compound) was swiftly gliding as they tarried at the paternal mansion.

One afternoon our friend had returned early as was his wont, and met his bride at the parlor door leading by either side two ruddy boys one of eight another of ten summers' growth. Picture the astonishment of the husband as the lady said "Darling those are our two sons. Willie and Robert boys this is your new papa." It required some time for the first vol of a husband to fully comprehend the explanation that the lady had been some years a widow and just before his meeting and introduction she had laid aside the mourning insignia. Although our friend was assured upon the point that these two boys were the *only fruits* of that marriage he could not fully comprehend how he had confounded *Miss* and *Mrs* in the gentle lady.

Another week rolls on and the new father naturally of a sympathetic soul his orphan sons first endured then pitied then embraced. What thin partitions do our bounds of thought and sense divide! One evening, in the dining room, where the happy step father had just joined his sons, from his down town business hours the wife entered accompanied by a golden tressed, smiling, boarding school Miss of about fifteen summers.

"Husband, darling this is *our daughter*, Miss Clementina, who has this afternoon arrived from the Seminary at Shurondale, to spend six weeks vacation with her dear papa and mamma."

If the other was a stroke of speechless surprise, this was a *thunderbolt*.

"Wife, love Clementina—*our daughter*—where am I—is this Manhattan or Sauvie's Island?"

Another explanation followed that night. Miss Clementina was the "*only child* of her first husband *Brown*, from whom she was divorced after an ill-assorted marriage of only sixteen months.

Our Oregon Benedict will be compelled to prolong his absence from friends in the Willamette valley, until next fall, in order to allow time for Miss Clementina "to graduate at Shurondale."

He has become reconciled to his condition and prospects as a *pater familias*, but advises all his Oregon acquaintances who may visit these parts to beware of widows and recommends attention to the following advertisement which may be found in the Daily morning papers.

MATRIMONIAL BUREAU.—AN OFFICE UNDER this heading has been opened in New York on the [illegible] plan to facilitate marriage. Here the names of all respectable parties matrimonially disposed are registered and [illegible] introductions exchanged [illegible]. N. B. [illegible] Silence observed. Address or call on Messrs GRIMSHAW & CO. Bureau 139 East Eighth street New York. Office hours 10 to 5 o'clock.

CALEB LYON ASKS FOR RELIEF.

Caleb Lyon of Lyonsdale late Governor and *ex officio* Superintendent of all the Idahoans, the Bonkanas, the Owyheeans the Lewistonians and the Shoshones, is at Washington City, chewing the cud of discontent over the loss of the forty odd thousand Government funds which he states were appropriated by some shabby fellow passenger on the sleeping car between New York and Washington, in December last. Caleb like Macbeth, uneasy in his couch "had removed his money belt in order to catch a little slumber and caught instead a Tartar. He has now petitioned the Senate to pass "a bill of relief," authorizing the Commissioner of Indian Affairs to credit his account with an item of $46,660, *money disbursed without vouchers*.

ANOTHER PAINTING OF MOUNT HOOD.

Butman the artist, who has won golden laurels on the Pacific coast, in painting so many beautiful pictures of the grand scenery of California and Oregon, has opened his *studio* in New York, and is now engaged on a large painting of Lassen's Peak. The view is given from across the Sacramento Valley, picturing in the foreground the rich verdure of summer time and the ripening fields of standing grain. A low range of foot hills in the middle ground, and beyond glowing with the rays of the setting sun, rises the snow capped mountain. His large painting of Mount Hood will shortly be put on exhibition at an art gallery on Broadway affording to the lovers of art and dwellers in this city who have looked on Bierstadt's fine picture, another representation of that grand old monarch of all the snow clad mountains of North America.

When the Pacific Railroad is completed, and a branch from Salt Lake to the Columbia and the California & Oregon Roads are finished, thousands of American millionaires and travelers who now visit the Alps and Pyrenees and think they have "*done the mountains*" will then pass their summer seasons around the Cascades and the Sierra Nevadas. And the time when all these things shall surely be brought about, is not far distant.

THE PACIFIC RAILROADS.

The Central Pacific Railroad Company of California is most fortunate in having located at New York that indefatigable financial agent, C. P. Huntington, Esq of Sacramento, Vice President of the Road. An excellent type of the true Pacific gentleman and man of business, he has been eminently successful in disposing in this market, of a large share of the seven per cent first mortgage bonds of the company at par, and has already purchased and paid for sufficient iron to complete the track to the Big Bend of the Humboldt. Of the 12,000 tons of rail which he has engaged for this spring, 8,000 tons are on board vessels or ready for shipment. This road has been located as far as the "Humboldt Wells," on the north fork of that stream, which locality, we believe, is about 200 miles due west from the middle Salt Lake. A very good route has been reported by the surveyors and engineers in the field, to the northward of the Lake, and in the event of the adoption of that line, the road will run near the "*City of Rocks*" in the borders of Idaho. Near that place must ultimately be projected a Northern Branch of the Central Pacific Railroad, extending to the valley of the Snake, and thence to the Columbia and to Oregon. Who are moving in this matter?

THE PARIS EXPOSITION.

The time is rapidly drawing near for the opening of the World's Fair in Paris, and the gentlemen who have in charge, in this city the assorting, loading and shipping of articles of American production and manufacture for the grand Exposition have been for the past month crowded with business. Two vessels provided at Government expense, laden with full cargoes, have already sailed, and a third will shortly be dispatched. If you ask what has been sent, the reply is, it would be easier to enumerate what has not been sent. Everything that is found within, or is growing among, or is manufactured by, this great North American Universal Yankee Nation, from a small mountain of native Michigan copper, and a delegation of unwashed Dakotah Aborigines, (*siwash tillacums*, you Oregonians would call them) to a complete country school house, with a Yankee "school marm," books and brats furnished to order from a Pennsylvania coal mine and an Illinois Congressman, to a New York restaurant and gin mill and Arkansas tooth pick from a forty hundred horse power New Jersey locomotive and tender and an automatic type setting and distributing machine to a thousand Connecticut clocks, and a complete set of curious ancient American coins, (*very rare* now a days) bearing the device of a soaring eagle, "bird o' freedom," and the quaint motto "*E Pluribus Unum*."

About the time the readers of the OREGONIAN see this epistle, Louis Napoleon will be formally opening this great Congress of Nations. What can be done for board and room for the vast multitudes of all nationalities that will crowd the French metropolis, is already becoming a serious question. Six months ago, most of the principal hotels had engagements to their full capacity. Enterprising Frenchmen and Americans had secured a large share of available quarters where rooms are rented, to be sub let at triple and quadruple rates.

A project is contemplated for the erection near *Champ de Mars* of a spacious temporary building capable of lodging 5,000 persons mechanics, exhibitors and craftsmen and others of the less wealthy Americans, who may visit the Exhibition. The building will be comfortable and substantial, and resembles somewhat the large barracks or hospitals that were built around Washington for the accommodation of our officers and soldiers in the late war.

It is estimated in well informed circles that not less than 100,000 Americans will visit Paris during the time of the Fair. At $500 each for expenses, this will require $50,000,000 in gold to foot the bills. America must have a World's Fair to get even on that. Others estimate the average expenses of all American visitors to the great Exposition at $1,000 in gold. Perhaps this is not too high for outward and return voyage, and all the hotel restaurant, cafe, and sight seeing bills and to swell the general estimate must be taken into account all the gold which will be paid for foreign clothing, Parisian toilets, Bohemian ornaments, Swiss watches, Italian statuary, European works of art and interest of all sorts.

The Fair will be opened on the first of April and continue until the first of October. In six months our people will at this estimate have spent the great aggregate of $100,000,000 in gold—an amount greater than the entire product of the precious metals in the whole United States during the year 1866.

How can America balance this account but by inaugurating the *Third World's Fair* in New York for A. D. 1870?

Then the great iron highway of the transcontinental route will be completed then the monthly steamship line, between San Francisco and China will be increased to a weekly line, then Collins Russian telegraph, and a second Atlantic cable will have thrown "a girdle round about the earth in forty minutes" then as we hope and pray, this nation of discordant States will have been truly and wholly reconstructed and cemented in the bonds of a perpetual brotherhood. Here the Crescent of the Orient shall meet the Cross of the Occident, and both Asiatic and European civilization, by opposite approaches, shall join hands in this metropolis of the New World. Then and there, friend OREGONIAN, you may meet,

Casually yours,
ELEETA FLINT.

By Overland Telegraph.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MARCH 18.

Congressional.

WASHINGTON, March 18.—The newly elected New Hampshire members, Messrs Ely and Stevens, took their seats.

Randall introduced a bill to authorize the issue of non interest bearing treasury notes, to be issued to provide a sinking fund to extinguish the national debt. The same bill was reported last session.

Washington News.

WASHINGTON, March 18.—Chief Justice Chase declines the labor and responsibility of selecting registers in bankruptcy until the whole court shall have decided that it is in the power of Congress to impose the duties upon him.

The House Committee will immediately examine into the New York Custom House matters. It is thought the President will remove Collector Smythe to end the controversy. The President's conduct in not removing him has been made the basis of by the Congressmen who favor impeachment.

A Committee of conference is called for immediately on the Supplementary Reconstruction bill. The desire is to have the House adjourn.

Chas Eames, a distinguished lawyer, died on Saturday.

NEW YORK, March 18.—The *Tribune* says the expected speech of Thad. Stevens on confiscation will be one of the most elaborate he ever made and will fully express the President's declarations before he became Chief Magistrate, in favor of confiscating the lands of rebels, and cutting them into small farms for Union soldiers.

On the examination of Gen. Halpine before the Judiciary Committee, regarding an interview with the President, the fact was elicited that the President did not use the term "Repudiation;" the witness formed his conclusions that the President feared repudiation, from the general tenor of his remarks.

The *Herald* says the President, so far from favoring or hinting repudiation, is most anxious to avoid any agitation about it. The *Herald* comments on the President's views and says they are broad and comprehensive, and that he is now on the right track.

News from Ireland.

NEW YORK, March 18.—The *Herald's* correspondence from London, the 6th inst., says that the British Government was taken by surprise by the Fenian uprising. The Fenian plan embraced simultaneous outbreaks in London and Liverpool, with conflagrations by means of nitro-glycerine. There is no question that this rising was led by men ashamed of previous failures.

Accounts published in the Cork *Examiner* and *Freeman's Journal* show that skirmishes occurred at Tallaght Bridge, Glencullen, Drogheda Castle, Martyr Adaire, Limerick City, Kilmallock, Limerick Junction and other places.

The Fenians are very deficient in arms and munitions and are easily dispersed. Each time the uprising was evidently more serious than the telegrams represented. It would seem, however, that they were premature. The *Tribune* concludes that the liberation of Ireland by armed insurrection at present is an impossibility.

A meeting was held in New York by delegations from twenty two circles of Roberts Fenians, at which, the *Tribune* says, a vast amount of practical work was done, making ready for the coming invasion of Canada.

NEW YORK, March 18.—No cable dispatches are coming. There is a break in the Irish land lines. Nothing public is known as to the cause, or whether it is the work of the Fenians or a storm.

The *Herald's* Dublin correspondent of the 6th, states that it is the Fenians' intention to send their own news through the cable.

An Irish Delegation visits the President.

WASHINGTON, March 18.—Two representatives of the Irish Republic had an interview with the President yesterday asking the recognition of belligerent rights by the American government. The representatives made an address in behalf of the Fenian Brotherhood, asking that the Irish Republic be respected as a government *de facto* by the United States, and that the American government insist on it that their belligerent rights be respected by Great Britain according to the rules of nations in time of war. The President asked is this *de facto* government actually in existence? The delegation assured him that it was, when he assured them that the question should receive all the consideration necessary in deciding a matter of such great importance. His sympathies were with the Irish people. The delegation asked for prompt interference in behalf of naturalized American citizens now prisoners in the hands of England. The President said measures had been taken for the relief of several naturalized citizens, and the other cases would receive attention.

Virginia Reconstruction.

RICHMOND, March 17.—Gen Schofield has suspended the municipal election at Fredericksburg. It is probable the same course will be adopted all over the State. The old officers will hold till a new election.

ST LOUIS, March 17.—The Democratic Central Committee publish a request that the Democrats of the several Congressional Districts of this State will appoint delegates to a National Democratic Convention to be held at Louisville, Kentucky, on May 7th.

Bogy gets another Appointment.

NEW YORK, March 17.—The *Herald's* dispatch says that ex Commissioner of Indian Affairs, Bogy, has been specially appointed by the President to conduct the treaties being made with the Sioux and Chippewa Indians.

Gen Simpson U. S. Commissioner of the Union Pacific Railroad, has been relieved from duty as Chief Engineer of the Interior Department, the duties of the two places being too onerous for an officer.

Whipping Prohibited in Virginia.

Gen Schofield has issued an order prohibiting the whipping of any person for crime in Virginia.

New York Legislation.

NEW YORK, March 17.—A committee of the Legislature have agreed to report a bill appointing commissioners to regulate prostitution in New York city with power to grant licenses or regulate prostitution and assignation houses. It will also provide for the inspection of the inmates.

From the South.

AUGUSTA, March 16.—The business part of the city of Albany, Ga., was to-day destroyed by fire. Loss, $200,000. The weather is very cold.

MEMPHIS, March 17.—A fire occurred in Howard's row last night. Loss, $150,000, half covered by insurance in Northern offices. The origin of the fire was accidental.

Vessels for Honduras.

NEW YORK, March 17.—Several war steamers which left Havana recently under sealed orders are reported to have gone to Honduras.

Miscellaneous.

It is stated that Gov. Fenton will leave for France by the steamer of next Saturday.

The recent seizure of Spanish wines at this and other cities is a serious hardship to importers who state that they have cargoes ready for shipment at Cadiz, but the Consul there refused to rectify the invoices and they cannot be consigned. Negotiations are now in progress and if they fail it is proposed to memorialize the Secretary of the Treasury.

BOSTON, March 18.—We have had a severe snow storm. The snow is a foot deep and trains are delayed. The storm prevails generally throughout the East and as far west as Buffalo.

Saint Patrick's day was celebrated with great enthusiasm.

South America.

NEW YORK, March 17.—Rio Janeiro correspondence of February 8th reports another bombardment of Fort Curupaity on the 2d of January. On the 16th the allies captured one of the enemy's entrenchments. The Brazilian papers denounce the offer of mediation by the United States between Brazil and Paraguay.

The Brazilian elections resulted in the success of the conservatives.

The revolution in the Argentine Confederation has not been suppressed. The Government forces have been defeated, but vigorous measures are in progress and the national guard has been called out. Buenos Ayres papers bitterly denounce the continuance of the war with Paraguay and the alliance with the nigger empire, as they term Brazil.

The Rio Grande Steam Navigation and Commercial Co., of Mexico, are having a number of small iron steamboats built in this city, by Duncan Cameron. The first boat of the line, of which [illegible] are to be, was put together in a vacant lot [illegible] and exhibited on Saturday to the public, prior to being taken apart and shipped to San Blas, from which port it will be transported hundreds of miles inland until it reaches its destination. The steamer is made entirely of iron so far as the hull is concerned. The company for which this steamer was built are building a railroad from the city of Guadalajara to the tank, some forty-two miles, where it will connect with the proposed steamers.

A man named Reynolds, in attempting to jump from the platform of a Sansome street car yesterday, fell with his right leg across the track. The front wheel [illegible] over the ankle, crushing it so that amputation may become necessary.

The frequent showers which prevailed yesterday, [illegible] the weather unfavorable for out-of-door celebrations, yet the McMahon Guards paraded with full ranks and a band of music. At the different Catholic churches, appropriate allusion was made to the day and it was observed in a quiet and orderly manner. The principal feature of to-day's celebration was the procession, which was a credit to the Irishmen of this city. Every Irish citizen and military organization, as well as a large number of citizens on foot and in carriages, joined in the parade, while the streets and sidewalks were filled with spectators. Every society bore the harp and sunburst of Ireland and the stars and stripes at their head. Upon arriving at Union Hall the societies marched into the building, which was soon filled to overflowing. [illegible] Axtell delivered the address. After the exercises at [illegible] Hall had concluded, the different military and civic organizations proceeded to their armories and were escorted by its band of music. This evening the festivities will conclude with a ball at Congress Hall by the Sons of the Emerald Isle, another at Union Hall, by the Fenian Brotherhood, and a grand concert at Platt's Hall for the benefit of the Society of St. Vincent. This benevolent society is well worthy of support.

HOW A MAN FREEZES TO DEATH.—M. Pawit lately read an interesting paper on this subject before the French Academy of Science. The author's inferences are as follows:

1. That the first phenomenon produced by cold is a contraction of the capillary vessels to such an extent that a globule of blood cannot enter; the vessels, therefore, remain completely empty.
2. The cold phenomenon is an alteration of the blood globules, which amounts to their complete disorganization.
3. Every animal completely frozen is absolutely dead, and no power can reanimate it.
4. When only part is frozen, that part is destroyed by gangrene.
5. If the part frozen is not extensive, and only a few disorganized globules pass into circulation, the animal may recover.
6. But if, on the contrary, the frozen part is of considerable extent, then the mass of altered globules brought into the circulation when the part is thawed, rapidly kills the animal.
7. For this reason a half frozen animal may live a long time if maintained in this condition, since the altered globules do not get into circulation; but it expires rapidly as soon as the frozen part is thawed.
8. In all cases of congelation, death is due to the alteration of the blood globules, and not to any effect on the nervous system.
9. It results from these facts that the less rapidly the frozen part is thawed, the more slowly altered globules find their way into the circulation, and the greater the chances of the recovery of the animal.

SURRATT'S BROTHER.—"Dixon" writes from Washington to the Boston *Advertiser*. It is known to persons resident here, though perhaps not to the country generally, that John H. Surratt had a brother Isaac, who was in the rebel army during the war. It has just come to light that this brother went to Mexico, immediately after the downfall of the rebellion. Nothing was known of him until October, 1865, when General Sheridan, then and now at New Orleans, learned that he had appeared at Monterey and crossed into Texas with the avowed intention of coming to Washington to assassinate the President. General Steele, in command on the frontier, very soon confirmed the intelligence, and the Secretary of War thereupon felt justified in placing a guard about the White House, which was kept there for some time. No intimation of the matter was given to the President, as it was feared he would refuse such protection. He finally got the idea into his head that the guard were detectives, and called the Secretary to account in violent language. This led to an explanation and the subsequent withdrawal of the guard.

DEATH OF MRS GENERAL SICKLES.—Mrs. Sickles, whose death occurred at New York on the 5th of February, says a Washington letter, was the daughter of Professor Bagioli, of New York, and is remembered as one of the most brilliant and fashionable women ever seen in Washington. She was elegantly educated and gifted with the most fascinating manners. She was married to Gen Sickles very young, and her first appearance, at the height of her youthful beauty, during President Pierce's administration, will long be recollected. Since the terrible tragedy with which her name was unhappily connected, she has steadily excluded herself from all the circles in which she was at one time a welcome and leading participant. The cause of her death was believed to be heart disease.

War Debts of the States

Propositions have been repeatedly made in Congress to provide for the assumption by the General Government of the debts incurred by the loyal States in paying bounties etc during the rebellion. The question recently came up in Congress again, but it was not decisively acted upon and no doubt another effort will be made ere long to push the measure through If the amount of money expended by the several States were proportionately equal, there would be less reason for objection to the proposition, but as some of the States chose to offer extravagantly large bounties rather than submit to a draft, while others adopted the opposite course and stood the draft rather than pay such sums as would hire men to enlist, it will be seen that it would be most unequal and most unfair for the General Government to assume the debts. Practically it would compel States which did their full share of the fighting, to help the dilatory States to pay the expense of hiring their citizens to do their duty to the Government. Though most of these propositions have come from New England, those States were not more delinquent in this regard than many others. Indeed they expended much less for bounties in proportion to the number of soldiers they sent, than did many of the other States For example, Massachusetts sent 158,380 men to the war, and paid bounties to the amount of $22,[illegible]. New Jersey sent 79,207 men and paid bounties amounting to $23,868,966 Thus it will be seen that though Massachusetts sent just [illegible] the number of men sent by New Jersey, the last named State paid much the larger sum in bounties. Wisconsin sent several thousand more soldiers than Michigan, yet Michigan paid nearly [illegible] more in bounties than Wisconsin. West Virginia sent nearly as many men as Maryland, yet the bounties given by West Virginia amounted to less than $1,000,000, while those of Maryland amounted to a sum about seven times greater. These comparative statements will enable every one to see the inequality of an act which should cause the General Government to assume the war debts of the several States. The total amount of bounties paid by States was a little short of $300,000,000. More than half of this sum was paid by New York, Pennsylvania and New Jersey. The six New England States paid less than half as much as New York alone. So this proposition for the General Government to pay the war debts of the States is not, as many have asserted, a scheme for the relief of New England.

Seward and Motley.

Eastern papers publish the whole correspondence in the Seward Motley affair. The origin of this disgraceful business—disgraceful to the President and his Secretary—was a letter purporting to be written from Paris to the President by a person who called himself "George W. McCrackin," in which the writer informed our reduced and [illegible] Chief Magistrate, (the man who said in the presence of a multitude that he "cared nothing for dignity") that Mr. Motley "did not pre[illegible] his 'disgust' as he elegantly termed it, at the whole conduct of the President," and [illegible] had [illegible] of Mr. Seward as one who was [illegible]. Seward then wrote [illegible] stating these statements and demanding [illegible] if they were true. The latter replied [illegible] them false and tendering his resignation as the only course left him after this open

[illegible] the question, who is "George W. McCrackin," the man who wrote to the President [illegible] alleging that he had been dirtily [illegible] in [illegible] private conversations, and [illegible] the President and his Secretary [illegible] by this pitiful exhibition of [illegible]. McCrackin in his letter told the President he was a citizen of New York, yet nobody knows him. So far as the newspapers [illegible] no one ever heard of "George W. McCrackin of New York." There seems to be about [illegible] probability of finding such an individual [illegible] of discovering that mythical person [illegible] said to have ate [illegible] Billy Patterson. The letter was fabricated by some one who [illegible] the dismissal of our able foreign minister, but who had not the manliness to own [illegible], is more than probable. The conduct of Johnson and Seward is rendered doubly despicable [illegible] their share in the transaction is considered in reference to these probabilities. There [illegible] be a doubt that the object of Seward [illegible] Motley, by an insult, to resign [illegible], Senator from Pennsylvania, was going out of office, and as he was one of the clique of [illegible] he had to be provided for. Johnson has [illegible] him twice for the position, but it will be some time before he goes as an accredited minister of the United States to the Court of [illegible]

[illegible] Dart on Indian Affairs.

[illegible] Dart, formerly Superintendent of Indian Affairs in Oregon, has written a letter to the New [illegible] Herald, opposing the transfer of the Indian [illegible] to the War Department, and giving the [illegible] the benefit of his wisdom in regard to [illegible] government of Indians. He throws the entire [illegible] of all the troubles the whites have had [illegible] the Indians upon the former class, and talks [illegible], like all "old fogies" do on such matters. While here his notions were known to be decided [illegible] of the Miss Nancy order, and that they are so still may be gathered from his last letter. We [illegible] a paragraph:

"The military posts should (in my opinion) be [illegible] from all parts of the Indian country; [illegible] whisky away from the Indians, and [illegible] a few honest and tried men that are friendly [illegible] the Indians to have care over them. This [illegible] save millions every year to the [illegible], and hundreds, if not thousands, of [illegible]."

This certainly promises a solution of the whole [illegible]. It is equivalent to a learned opinion that if the whites and Indians are not brought in contact, there will be no difficulties between them But how can the whites be removed from the "Indian country?" That region once called the "Indian country" no longer exists as such. The whites have occupied it. Civilized men are making [illegible] in it, and it is serving better uses than [illegible] of hunting grounds and buffalo pastures The whites have settled in that country, and must, of necessity, come in contact with the Indians And the Indians must be restrained from murder [illegible]. There is no longer any region to which the Indians can be sent where they will be separated entirely from the whites. And since this is the [illegible], the pompous advice of Mr. Dart, late Superintendent, etc., though it may be accepted at the East as true wisdom, will not be regarded as of much practical value by those who are acquainted with the present condition of the western country.

"Sacred Poetry."

The following is a stanza from a ballad entitled "The Conquered Banner," which the newspapers say was written by Rev A J Ryan, Catholic Priest of Knoxville, Diocese of Nashville, Ten[illegible]:

Take that Banner down, 'tis tattered!
Broken is its staff and shattered
And the valiant hosts are scattered,
Over whom it floated high
Oh! 'tis hard for us to fold it!
Hard to think there's none to hold it,
Hard that those who once enrolled it
Now must furl it with a sigh

We respectfully commend this to the attention of those who are accustomed to pounce with such [illegible] vindictive[illegible] upon the utterances of "political [illegible]," and whose [illegible] "right is to find an opportunity of this kind to relieve themselves of their surplus gall and venom But we predict that this instance will not come under their observation The above is almost as good as a ballad which was written in the same measure by a Protestant clergyman of Oregon and published in the Albany *Democrat* in 1861, wherein the national troops were denominated as "the enemy," and Lee and Beauregard were styled "the glory of the land" Of this sort of "political preachers" we hear few denunciations

THE OREGON CODE.—The San Francisco *Bulletin*, in a critical notice of the Oregon Code, has the following remarks

The Code has been executed with the distinguished ability which was expected from the compiler and it has been received with general satisfaction It is thoroughly annotated not only with references forward and backward within its own body and with notices of amended and repealed laws, but with citations of decisions in Oregon and in other States so numerous as almost to give the volume the character of a Digest of Decisions in addition to that of a compilation It furnishes in fact, one of the best statutory codes that has ever been compiled and will probably remain a nucleus around which the legislation of Oregon will crystalize itself for many years

One of the most interesting studies presented by a people is that of its legislation The view here presented of the exigencies to which the people of Oregon have been subjected and of the manner in which they have met them, redounds to their credit, as does the wisdom with which they have adopted at once these legislative enactments applicable to their condition, and which embodies the experiments and experience of older States for a period of one and two hundred years

In point of typographical execution the compilation presents one of the finest specimens of law books which we have ever seen Oregon has thus put to shame some of the most distinguished law publishers of Boston New York and Philadelphia some of whose recent publications are disgraceful to the art of printing and binding, and abhorrent to the legal profession

STATE ITEMS

Fanning's train of fifty mules left Umatilla last Wednesday with freight for Pioneer City Idaho

The Umatilla *Press* says: A party of surveyors arrived in town on last Wednesday night, and have commenced the survey and meandering of the Columbia They will subdivide the fractional townships along the river between the point opposite Umatilla and Wallula and will also survey one township back of the first or fractional towns. Mr E Giddings, Jr, has the contract and personally superintends the work

J Gaston, Esq Agent of the Oregon Railroad Company, writes as follows to the Corvallis *Gazette*: I have just been notified by the California and Oregon Railroad Co. (the company working the California end of the enterprise) that they have commenced soliciting stock, and have received subscriptions amounting to over $30,000, with ten per cent paid in, in cash—this fact you may publish. They mean business. We will commence canvassing as soon as the weather settles, so that the work will not be interrupted by the storms which have been prevailing.

Political Items.

The Arkansas Senate, on the 2d of February, by a vote of seventeen to seven, concurred in the House bill extending all civil rights and privileges to persons of African descent now enjoyed by whites, excepting the right of voting, serving on juries, militia duty, and intermarriage with whites.

The Maine Legislature is considering resolutions in favor of impartial suffrage, with the exclusion of conscious, intelligent traitors, of the trial of Jeff. Davis, and of overhauling Mr Johnson's bogus State Governments and erecting new ones, founded on the organic laws of Congress and the will of the loyal people.

The Richmond *Times* remarks that Robert E Lee has not yet intimated that he would refuse to serve if elected Governor of Virginia, and says "Until he speaks we trust that no inferior man will outrage public opinion in Virginia by venturing to solicit an office which Lee may not feel authorized to decline."

George W. Paschol and quite a number of other prominent Union men of Western Texas have memoralized Congress to divide that State midway between the Brazos and Colorado rivers, saying that if so divided the western section would strongly sustain the Union, on the basis of the Congressional reconstruction policy.

A New Orleans journal says of General Albert Sydney Johnson, that in life he possessed a serenity of soul which could have viewed with composure the dissolution of the world and a revolution in the universe. With what indifference then must his calm spirit view the attempts of petty power to disturb the remains that once held so great a spirit?

Mr. Scovel, late President of the New Jersey State Senate, publishes a card that he never was influenced on the Senatorial question by money, that he made nothing during his legislative career, ceased to believe in Andrew Johnson on February 22d, and is content with private life; and if he is less ambitious, he has more humility than he had one year ago

It is said in Boston that Charles Sumner is to retire from political life at the close of his present Senatorial term and spend several years in Europe; that ex Gov. Andrew will be a candidate for his place, and also Governor Bullock, that Hon John B Alley will then be Governor of Massachusetts; that General Butler will be the next nominee of the Republican party for President, and that E G Walker, one of the colored representatives in the Legislature, will run for Congress in Banks' district when his term expires.

The Republicans in Washington and Alexandria are making a thorough and active canvass in preparation for the coming municipal elections The Republican Association is holding meetings in the different wards, and forming auxiliary associations, composed of both white and colored citizens. The colored leagues are also holding public meetings at various points in the two cities, which are addressed by white and colored speakers, who discuss the political topics of the day and instruct the colored voters as to their duties in their new political condition

EIGHTEEN YEARS AMONG THE INDIANS.—Under this heading the Elmira *Advertiser* relates the adventures of one James P Kimball, who, with his wife, has just returned to the bounds of civilization after eighteen years residence among the Indians of the Northwest Mr and Mrs Kimball were with a party which left East Medway Massachusetts, in the spring of 1849, for California by the overland route. They had crossed the plains of Utah, when they were attacked by a party of Snakes and Shoshones, and all were captured or killed The father of Mrs Kimball was burned at the stake, but the young couple were adopted by the Indians and have lived among them ever since until last spring, when they were present at a fight near Fort Laramie Mr and Mrs Kimball were rescued by the United States troops They left two daughters among the Indians, however Both are the wives of chiefs Coming East, Mr Kimball learned that his father was living between Corning and Painted Post, and he was on his way to visit his parents when he passed through Elmira His habits are still like those of the wild Indian, to a great measure his favorite food being raw beef steak His wife was in company with him

A WORD ABOUT COLORS.—There are two colors that are very popular in our country viz The National colors and the *Family Dye Colors* For the former we are indebted to the patriotic spirit of the American people and for the latter to Howe & Stevens, one of the most enterprising firms in the country The colors of each neither fade nor run Sold by Smith & Davis

AN ASTOUNDING ANNOUNCEMENT. The steamer *Continental* is widely known as being the vessel that brought from New York the celebrated Mercer family and consequently has a reputation that will be preserved in history for extensive importations But when it is known that the enormous stock of CLOTHING consisting of fine BROAD CLOTH SUITS BROWN and CASSIMERE GOODS and the latest sensations in spring styles for 1867 just received at the ST LOUIS STORE by Messrs KOHN & FISHEL, the steamer *Continental* will be more than ever justly celebrated A call at this bazaar of fashion will convince the most skeptical

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS. E McLANE,
WM. C RALSTON, A HAYWARD,
LOUIS A. CARNETT

LOUIS A CARNETT ... President and Manager.
JOHN HEWSTON, Jr ... Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion
Their charges hereafter will be as follows

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One eighth of one per cent (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent, for all amounts over that sum, and one per cent, on the silver contained Returns made in twenty four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 300 parts gold 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce
On bullion from 600½@750 parts gold 6 cents per ounce
On bullion from 750½@949½ parts gold 8 cents per ounce
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars

FOR COINING GOLD

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY-EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint
Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates
Dust and bullion can be forwarded to us from any part of the country and returns made through Wells Fargo & Co 's Express.

CHARGES AT U S BRANCH MINT

For the convenience of those not familiar with the terms of the Mint we subjoin the tariff of charges now in force at that institution
For refining bullion under 300 parts gold 5 cents per ounce
For refining bullion from 300½@600 parts gold 6 cents per ounce
For refining bullion from 600½@750 parts gold 7 cents per ounce
For refining bullion from 750½@850 parts gold 11 cents per ounce.
For refining bullion from 850½@949½ parts gold 14 cents per ounce
The charge for coinage is half of one per cent and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent —they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage
850 par to equal Mint return at refining charge of 14 cents.
845 par to equal Mint return at refining charge of 14 cents
865 par to equal San Francisco A. & R. Works return at refining charge of 8 cents

Are you aware that the promonitories of Consumption are Coughs Colds, Bronchitis Pains in the side and chest, difficulties of breathing, &c. If you permit these symptoms to run on tubercles will be the result and end in Consumption. Now if you want to cure these diseases use ALLEN'S LUNG BALSAM without delay. Consumptives should never give up and think there is no hope until you have tried ALLEN'S LUNG BALSAM. It has cured many cases that physicians pronounced incurable. Sold by the dealers in family medicine generally. f18d1m

PERRY DAVIS' PAIN KILLER is really a valuable medicament and unlike most of the patented articles of the day, is used by many physicians. It is particularly desirable in locations where physicians are not near, and in families will often save the necessity of sending out at midnight for a doctor. A bottle should be kept in every house.—*Boston Traveler* fe18dawlm

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned and placed on their guard against this practice

The Darien Survey.

It has been declared in the New York *Post* that no survey of a practicable route for a canal across the Isthmus of Darien has ever been made The *Panama Mercantile Chronicle* of February 17th takes up the subject, and in two editorials maintains the following facts

One of the grounds advanced against Mr Gogorza is that he did not survey the route himself—that is, in the discovery he was not there himself personally Had Mr Gorgoza pretended that he had crossed the Isthmus of Darien in his own person, there might be room to doubt the accuracy of his assertions, but it does not so appear All that Mr. Gogorza claims is having, by consulting old documents and maps in the archives of Spain [illegible] a route which his engineers, by actual survey, verified, and found all those conditions favorable to the construction of a canal to exist We have inspected the field notes of Mr Louis [illegible], civil engineer, and are satisfied that every inch of the ground has been surveyed, and therefore, can have no doubt that the break in the Cordilleras and the Andes, which Mr [illegible] affirms to exist, and which he thinks most available for the canal route, is really to be [illegible]. Nor can it be objected that the survey said to have been made was not a true one, since not only were distances measured as from point to point, but also as to altitude, as well as the geological and topographical character of the district. The *Post* is, therefore, wrong in the position which it has taken up. But in addition to the considerations suggested above, we have seen the affidavits of seven natives, made before the [illegible] of Balboa, and Yaviza, that they went with Mr. Lacharme and Mr Jules A Go[illegible] accompanied by five Indians, from the [illegible] a tributary of the Tayra, to the Cacarica, a tributary of the Atrato to which affidavits the [illegible] adds a certificate that he happened to have been present at the time.

The survey set on foot lately, not by Senator [illegible], but by a company not fewer than ten persons, had for its object to verify the existence of the division. The terms of the agreement, [illegible] very "tight," (a word well understood in [illegible]) were substantially nothing more than this: that Mr. Gogorza either in person or through his agents, was to point out the route, and the company was to make the admeasurements for the verification of the original survey, and to report on the practicability of the [illegible] and Mr. Spooner, as agent of the company, [illegible]. We have already seen by Mr [illegible] letter, that the illness of Mr Davidson [illegible] his return to the United States, and we see, from the terms of Mr de Gogorza's [illegible] in case of the sickness or death of the [illegible], his assistant, Mr. Halter, was to [illegible], added to which Mr de Gogorza's [illegible] was at this time momentarily expected, and actually did arrive at Aspinwall [illegible] New York steamer was sailing out, [illegible] further help was required it could have been had here, and even the services of the Gov[illegible] could have been secured. Thus, [illegible] there was no reasonable ground upon [illegible] alleged by Mr. Spooner for breaking [illegible], the more so when much expense had been incurred, and the point at issue is [illegible] nature to the whole world. The [illegible] still open for verification, and it is to [illegible] that we shall soon hear of another expedition being fitted out, and set on foot under [illegible] direction, with the view of verifying [illegible] important discovery, the credit of [illegible] belongs to Mr. Anthoine de

Burmah Rebellion —Late advices from [illegible] Asia bring additional accounts of the [illegible] in Burmah. The King, who has the [illegible] the heir-apparent among all the [illegible] had conferred that honor upon his [illegible] instead of selecting his own son The [illegible] was commenced by two of the King's [illegible] during their uncle, the heir apparent [illegible] got possession of the King's only [illegible], then at Mandelay, and came down the [illegible] about forty miles from the British [illegible] the towns on the banks of the [illegible] exactions, and where refused they [illegible]. But the [illegible] who were in [illegible] withdraw into the interior or fled to [illegible] there was no fraternizing, and [illegible] not succeeded in raising a party The [illegible] the Capital, which is somewhat fortified [illegible] is no apparent dissatisfaction [illegible]. It is expected that he will make [illegible] heir-apparent, and the rebel [illegible] will have to leave the country The [illegible] was so crude and ineffectual that it is [illegible] to comprehend the motive of the murder, [illegible] apparent [illegible] of the outbreak

Spontaneous Combustion —The following is [illegible] a circular from the Ordnance [illegible]

[illegible] General Hagner having reported a [illegible] of a well authenticated case [illegible] combustion at Watervliet Arsenal, [illegible] of sufficient importance to communicate [illegible] the circumstances for the information [illegible]. This combustion resulted [illegible] of sawdust instead of sand, as [illegible], on some linseed oil which had leaked [illegible]. The sawdust thus mixed, with oil [illegible] spontaneously in twelve hours in a cellar [illegible] had been placed in a box, but was discovered [illegible] the fire engines extinguished it without [illegible]. The temperature of the cellar [illegible] sixty-six degrees, indicating that a low [illegible] will cause spontaneous combustion in [illegible] of linseed oil and sawdust.

Transportation in the Rocky Mountains.—[illegible] munication of the Secretary of War to [illegible], covering a statement of quarter[illegible] contracts since the last report, are items [illegible] the difficulty and cost of transportation [illegible] the Territories of the Rocky Mountain region. One item is for 300 tons of hay for Fort Kearny, at $80 per ton The supply for [illegible], Montana, is furnished at $110; for [illegible] McGary, Nevada, at $80. The contract [illegible] at Fort Garland, Colorado Territory, [illegible], is made at 8½ cents per pound; Fort Union, New Mexico, 5 49 100 cents per [illegible]. Transportation is furnished from Fort [illegible], to Fort McDowell, Arizona, at [illegible] per pound; From Denver to Fort Laramie, $1 97 per hundred. Wood is furnished for [illegible], in Kansas, at $35 per cord.

Rebel Plans in Tennessee.—The Nashville [illegible] declares that the passage of the [illegible] and Negro Suffrage bill in Tennessee [illegible] war. The rebels of that State mean to [illegible] the attempt to exclude them from [illegible] power. The Nashville *Press* says there [illegible] spiracy in Cannon, Warren and White [illegible] to assassinate prominent Union men, on [illegible] heads prices are set as follows: Col W [illegible], $5,000; Colonel Blackburn and Colonel [illegible], $4,000, Captain Hathaway and [illegible], each $2,000, and for the killing [illegible], one rebel citizen of Dekalb county [illegible] $1,000 extra reward. There are plenty [illegible] in the State willing to undertake [illegible] work.

Notable Overland Party.—Dr Burleigh, [illegible] from Dakota, has organized a party in [illegible] for a trip to Dakota, to start on June [illegible]. The party is to consist of Senators Wade, [illegible] son, of New Hampshire, Chandler, Howard, Yates, Morrill, of Maine, and Poland; Represen[illegible] Williams, Covode, and Bingham. Hon E. McPherson and Chief-Justice Carter They will set out from Yankton and go down Red river to the British Possessions, then along the line of the projected Pacific Railroad to Yellow Stone river, and then return down the river. They are to have a military escort, and Indians to supply [illegible] with subsistence, and will be gone about [illegible] months.

Southern Loyalists and the New York Tribune.—The *Times'* Washington correspondent [illegible]: At a meeting of the Southern Republicans in this city a proposition was made to make the *New York Tribune* the authorized organ of the [illegible] for the publication of its proceedings. It was not successful, however, because it was [illegible] stated that that paper does not in its policy [illegible] with the desire of the loyalists of the [illegible], but, on the contrary, is diametrically opposed to it. The proposition of general amnesty and universal loyal and disloyal suffrage is denounced by the Southern Republicans as bitterly as the policy of the Administration

The Yacht Correspondence.—The Boston *Advertiser* suggests that the following would have been more to the point and cheaper for sending over the cable than the letters that were sent

—Mr. Bennett to Prince Alfred

Off Cowes, Dec 31, 1866

Your Royal Highness I'm going to give you my yacht, my regards to your mother and the royal family. Yours, J G Bennett

Prince Alfred to Mr Bennett:

Dear Sir: I must decline, with thanks this establishment does not advertise in the New York *Herald*. Alfred

The [illegible] D. Hall has invented a railroad switch that should have the attention of railroad men. By a very simple arrangement an electric current rings continuously whenever the switch is moved from connection with the main line, thus sounding a warning, not only to the switchman, but to all [illegible].

An Act granting Land to aid in the Construction of a Railroad and Telegraph Line from the Central Pacific Railroad, in California, to Portland, in Oregon

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled That the California and Oregon Railroad Company organized under the act of the State of California to protect certain parties in and to a Railroad survey, to connect Portland in Oregon with Marysville in California approved April sixth, eighteen hundred and sixty three and such company organized under the laws of Oregon as the legislature of said State shall hereafter designate be and they are hereby authorized and empowered to lay out locate construct finish and maintain a railroad and telegraph line between the city of Portland in Oregon and the Central Pacific Railroad in California in the manner following to wit The said California and Oregon Company to construct that part of said railroad and telegraph within the State of California beginning at some point (to be selected by said Company) on the Central Pacific Railroad in the Sacramento valley in the State of California, and running thence northerly through the Sacramento and Shasta valleys to the northern boundary of the State of California and the said Oregon company to construct that part of the said railroad and telegraph line within the State of Oregon beginning at the city of Portland, in Oregon and running thence southerly through the Willamette, Umpqua and Rogue river valleys to the southern boundary of Oregon where the same shall connect with the part of re said to be made by the first-named company: *provided*, That the company completing its respective part of the said railroad and telegraph from either of the termini herein named to the line between California and Oregon before the other company shall have likewise arrived at the same line shall have the right and the said company is hereby authorized to continue in constructing the same beyond the line aforesaid with the consent of the State in which the unfinished part may lie upon the terms mentioned in this act until the said parts shall meet and connect, and the whole line of said railroad and telegraph shall be completed

Sec 2 *And be it further enacted* That there be, and hereby is granted to the said companies their successors and assigns, for the purpose of aiding in the construction of said railroad and telegraph line, and to secure the safe and speedy transportation of the mails, troops, munitions of war, and public stores over the line of said railroad, every alternate section of public land not mineral designated by odd numbers to the amount of twenty alternate sections per mile (ten on each side) of said railroad, and when any of said alternate sections shall be found to have been granted, sold, reserved, occupied by homestead settlers, pre-empted, or otherwise disposed of, other lands designated as aforesaid, shall be selected by said companies in lieu thereof, under the direction of the Secretary of the Interior, in alternate sections designated by odd numbers as aforesaid nearest to and not more than ten miles beyond the limits of said first-named alternate sections, and as soon as the said companies, or either of them, shall file in the office of the Secretary of the Interior a map of the survey of said railroad, or any portion thereof, not less than sixty continuous miles from either terminus, the Secretary of the Interior shall withdraw from sale public lands herein granted on either side of said railroad, so far as located and within the limits before specified. The lands herein granted shall be applied to the building of said road within the States respectively, wherein they are situated And the sections and parts of sections of land which shall remain in the United States within the limits of the aforesaid grant shall not be sold for less than double the minimum price of public lands when sold *provided*, That bona fide and actual settlers under the pre-emption laws of the United States may, after due proof of settlement, improvement and occupation as now provided by law, purchase the same at the price fixed for said lands at the date of such settlement, improvement, and occupation *And provided, also*, That settlers under the provisions of the homestead act, who comply with the terms and requirements of said act, shall be entitled, within the limits of said grant, to patents for an amount not exceeding eighty acres of the land so reserved by the United States, any thing in this act to the contrary notwithstanding

Sec 3 *And be it further enacted*, That the right of way through the public lands be, and the same is hereby, granted to said companies for the construction of said railroad and telegraph line; and the right, power, and authority are hereby given to the said companies to take from the public lands adjacent to the line of said road, earth, stone, timber, water, and other materials for the construction thereof Said right of way is granted to said railroad to the extent of one hundred feet in width on each side of said railroad where it may pass over the public lands, including all necessary grounds for stations, buildings, work shops, depots, machine-shops, switches, side-tracks, turn-tables, water-stations, or any other structure required in the construction and operating of said road

Sec 4 *And be it further enacted*, That whenever the said companies, or either of them shall have twenty or more consecutive miles of any portion of said railroad and telegraph line ready for the service contemplated in this act, the President of the United States shall appoint three commissioners, whose compensation shall be paid by said company, to examine the same and if it shall appear that twenty consecutive miles of railroad and telegraph shall have been completed and equipped in all respects as required by this act, the said commissioners shall so report under oath to the President of the United States, and thereupon patents shall issue to said companies or either of them, as the case may be, for the lands hereinbefore granted to the extent of and coterminous with the completed section of said railroad and telegraph line aforesaid, and from time to time, whenever twenty or more consecutive miles of the said road and telegraph shall be completed and equipped as aforesaid, patents shall in like manner issue upon the report of the said commissioners, and so on until the entire railroad and telegraph authorized by this act shall have been constructed, and the patents of the lands herein granted shall have issued

Sec 5 *And be it further enacted*, That the grants aforesaid are made upon the condition that the said companies shall keep said railroad and telegraph in repair and use, and shall at all times transport the mails upon said railroad, and transmit dispatches by said telegraph line for the government of the United States, when required to do so, by any department thereof, and that the government shall at all times have the preference in the use of said railroad and telegraph therefor at fair and reasonable rates of compensation not to exceed the rates paid by private parties for the same kind of service. And said railroad shall be and remain a public highway for the use of the government of the United States, free of all toll or other charges upon the transportation of the property or troops of the United States and the same shall be transported over said road at the cost charge, and expense of the corporations or companies owning or operating the same, when so required by the government of the United States

Sec 6 *And be it further enacted*, That the said companies shall file their assent to this act in the Department of the Interior within one year after the passage hereof, and shall complete the first section of twenty miles of said railroad and telegraph within two years and at least twenty miles in each year thereafter and the whole on or before the first day of July one thousand eight hundred and seventy five and the said railroad shall be of the same guage as the Central Pacific Railroad of California and shall be connected therewith

Sec. 7 *And be it further enacted*, That the said companies named in this act are hereby required to operate and use the portions or parts of said railroad and telegraph mentioned in section one of this act for all purposes of transportation travel and communication so far as the Government and public are concerned as one connected and continuous line, and in such operation and use to afford and secure to each other equal advantages and facilities as to rates, time and transportation without any discrimination whatever on pain of forfeiting the full amount of damage sustained on account of such discrimination to be sued for and recovered in any court of the United States or of any State of competent jurisdiction

Sec 8 *And be it further enacted* That in case the said companies shall fail to comply with the terms and conditions required, namely by not filing their assent thereto as provided in section six of this act or by not completing the same as provided in said section this act shall be null and void and all lands not conveyed by patent to said company or companies as the case may be at the date of any such failure, shall revert to the United States And in case the said road and telegraph line shall not be kept in repair and fit for use after the same shall have been completed Congress may pass an act to put the same in repair and use, and may direct the income of said railroad and telegraph line to be thereafter devoted to the United States to repay all expenditures caused by the default and neglect of said companies or either of them as the case may be or may fix pecuniary responsibility not exceeding the value of the lands granted by this act

Sec 9 *And be it further enacted* That the said 'California and Oregon Railroad Company' and the said "Oregon Company" shall be governed by the provisions of the general railroad and telegraph laws of their respective States, as to the construction and management of the said railroad and telegraph line hereinbefore authorized, in all matters not provided for in this act Wherever the word "company" or "companies" is used in this act it shall be construed to embrace the words "their associates, successors, and assigns" the same as if the words had been inserted, or thereto annexed

Sec 10 *And be it further enacted* That all mineral lands shall be excepted from the operation of this act but where the same shall contain timber so much of the timber thereon as shall be required to construct said road over such mineral land is hereby granted to said companies *Provided* That the term mineral lands shall not include lands containing coal and iron

Sec 11 *And be it further enacted* That the said companies named in this act shall obtain the consent of the legislatures of their respective States and be governed by statute regulations thereof in all matters pertaining to the right of way wherever the said road and telegraph line shall not pass over or through the public lands of the United States

Sec 12 *And be it further enacted*, That Congress may at any time having due regard for the rights of California and Oregon railroad companies add to alter amend or repeal this act

Approved, July 25 1866

Letter from Garibaldi on President Johnson and the Congress —The Paris *Union* publishes the following letter from Garibaldi to an American citizen on the conflict between President Johnson and the United States Congress

Caprera January 8 1867

Sir I am happy to be able to satisfy your wish to know my opinion on the existing controversy between the President of the United States and the majority of Congress I shall give it with the consciousness of treating of a question which concerns not only America but humanity in general Yes for us, friends of the American Union who one moment trembled for its integrity in the gigantic struggle so happily terminated, the importance of giving a vote to the colored race is dwarfed in the face of the danger of giving rise to new dimensions Members of the human fraternity, we make no distinction of race Thus we applauded the election by the generous population of Massachusetts of two colored deputies to the House of Representatives, and we shall praise any of those demonstrations of a country where liberty and progress are not merely vague words What we desire, above all, is that the harmony more or less perfect which to day prevails among the members of the American family should not be disturbed and that at any price, every species of individual prejudice may be suppressed so as to retain intact the integrity of the Great Republic the most powerful palladium of liberty in the world Let your President therefore, come to an understanding with Congress Let there be no more dissidence between the States which constitute your admirable political system These are the wishes formed by your sincere friends, among whom I am proud to count myself

G Garibaldi

How to Solve the Mormon Problem —Richard Williams in a lecture at Buffalo, lately thus spoke of the Mormon population

There is one element among themselves that is troublesome The general testimony of the Gentiles who have lived in intimate social relations with them, is that young girls (to their honor be it said) are mostly disaffected Growing up with it, they have seen the institution, with all its abominations, and, opposed as it is, to all their holier feelings and better instincts, no amount of spiritual thunder can control them Here, as everywhere, they are a privileged class, and can not very well be whipped or imprisoned. Like most of the descendants of Eve, they will talk, and are very ready to elope with a Gentile who has the courage and can get away with them They cannot marry a Gentile and remain peacefully at home Very naturally, they prefer a whole Gentile to one-sixth of a Mormon The most effectual way of breaking up the whole system would be to send an army of ten thousand unmarried men among them, and protect every man who married and brought a Mormon woman to camp We might in this way get rid of the nuisance without bloodshed or incurring the odium of a religious persecution

A proposition was made to the General Committee of the Paris Exhibition to raise the admission price one day in every week during the Exhibition to 5f in order to accommodate the aristocracy and to lower it on Sunday to 25 cents for the accommodation of the laboring classes This has been rejected, and the price will be uniform—one franc The Japanese embassadors for the Exhibition have already arrived with a highly interesting and useful collection

LEFFEL'S AMERICAN DOUBLE TURBINE

WATER WHEEL

These wheels, unequaled and unrivaled in the United States or the world have been fully tested on this coast, more than forty being in use at this date, driving all kinds of machinery, Saw Mills Flour Mills, Quartz Mills, Woolen Factories, &c, &c

On account of the extraordinary demand, our stock of wheels is considerably reduced, and we are entirely out of several sizes, therefore parties contemplating using our wheel, to be certain of securing them in time, should give their order at least three months before they expect to get them that we may be able to make them by the time needed

We cheerfully refer to all using our wheels and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them* Address

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

In every progressive science periods arrive when a new direction is imparted to its course These periods proceed from discovery from facts shedding a light which changes the whole aspect of the science The present is an epoch of this kind and this Great Remedy is now offered to the public in connection with the theory on which it is based is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood The FOUNTAIN OF LIFE is composed entirely of vegetable extracts It contains no Mercury or other mineral substance

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything from the days of Esculapius down to the present time in the arcana of Medical Science which can vie with or excel the intrinsic properties of this Great Blood Purifier Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world No matter what form the deadly disease of SCROFULA and KING'S EVIL may have assumed it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER Thousands have been swept into their graves who had they made a timely use of the FOUNTAIN OF LIFE might now be enjoying the blessings of life and health It requires an article of real merit and intrinsic value to sustain itself During the storm ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial and not been found wanting

Dr HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world and eradicate the disease entirely from the system or no charge made—provided they will secure him his pay when they are cured

FOR REFERENCE:

I will refer you to L. L Peck of Portland Oregon and numbers of others as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years

DR. G W. BROWN

Has located in Portland in CARTER'S NEW BUILDING for the permanent cure of all private diseases such as syphilis, gonorrhea gleet, strictures &c. He also calls the attention of those suffering with

DISEASES OF THE EYES

to call at his office and be at once restored. Surgical operations SKILFULLY performed on the EYES for film, cataract, strabismus or cross eyes

Below are some of the many testimonials:

This is to certify that I, John B. Jodwan, was blind for over nine years and I tried all means of a cure, and many doctors, and all of no effect, and I spent all the means I had Finally I had to become a county charge, and when I was taken to Dr G W Brown, and stated my case to him, and misfortune he at once commenced to treat my eyes, and now I am well, and commend all those that are suffering with sore of the eyes to call on Dr G W Brown The reason why I do this is to let suffering humanity know where they can be cured J B JODWAN

Saturday, Feb 10 1866

This is to certify that my daughter was almost blind for over seven years, and was doctored by other physicians without obtaining any relief when finally I took her to Dr G W Brown, who examined her case, and at once began to give her treatment, and her sight has been entirely restored I do this to let those who are suffering with diseases of the eyes know where they can obtain a cure It has been three years since her eyes were cured, and they are yet sound

THOMAS LIVINGSTON,
Deer Creek Precinct Douglas county, Oregon.

Salem, July 21, 1866.

This is to certify that I was blind for over four months, and almost blind for one year and a half, I tried several eye doctors but received no benefit, I had almost given my case up as hopeless when fortunately I heard of Dr. G W Brown, now of Salem I was induced to try him; he performed a surgical operation on my eyes, and gave me treatment I soon began to recover, and in a short time I was perfectly cured I do this in justice to one who rescued me from a fate worse than death and also for the benefit of those who are laboring under similar afflictions that they may know where they can get relief It is now about eight months since my eyes were cured and they still remain good I can see to read the finest print without difficulty, and my eyes can bear the strongest light without pain

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cared for and cured before it be too late Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures viz: Sallow countenance, dark spots under the eyes pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs, confused vision, blunted intellect loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory hectic flushes, pimples and various eruptions about the face, furred tongue fetid breath coughs, consumption, night sweats, monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country with full and plain directions for use For Ten Dollars, sent in registered letter or through Wells Fargo & Co

He has secured the services of "Charley" (known to be the best cook in Salem and one of the best in the whole country) and other competent persons to manage the culinary department, and is resolved to set as good a table as can be found anywhere—not in clap-trap, pomp and show flummery and fine furniture, but in an abundant supply of the very best the market affords

His Bar room will be kept warmed and lighted, and well supplied with newspapers, periodicals and other suitable reading matter and kept in a manner which will make it an agreeable resort

In short he intends making an effort to please all who stop at the Bennett House. And he most respectfully requests his friends everywhere to give the old and well known stand at least one more trial before concluding they can do as well elsewhere and promises if they are not well treated, and properly cared for and *at reasonable figures* it will not be the fault of the public's most obedient and most humble servant,
